

**2017 Finn U23 World Championship
Balatonfüred, Hungary
August 20 to 27, 2017**

Immediate action needed!!!

Subject: Support boat registration

Dear Coaches and Team Leaders!

Perhaps you have already heard about the need of the support and coach boat registration from the Notice of Race:

NoR 3.9: As the lake is a national reserve area, according to national laws coach and support boats have to be registered (see the registration form in the event web site - <http://2017.finnsilvercup.org/application/>) not later than 27th July 2017 and will have to pay a fee of EUR 120 in order to receive a corresponding National Transportation Authority permit to use such coach and support boats during the regatta. The Organizing Authority is ready to assist participants with the permit administration upon arrival. It is highly advisable to register for the permit otherwise local coast guard may forbid the use of coach and support boats not holding the necessary permit. The above-mentioned fee is payable for authorities in full in order to receive the required permit. This permit will be valid for the Finn Gold Cup as well. Coaches shall indicate this when lodging a request for the permit. Coach registration is free, they are able to take part in all official and social event during the regatta and receive an entry pack of the event.

I would like to inform you that the deadline for the support boat registration is about to expire. Therefore, it is highly recommended that you send the **registration form** before the deadline. (27th July)

After the expiration of the deadline, we can no longer guarantee 100% of the validation of your support boat's operating license

Further information:

There is a police station at the harbour, therefore the probability of checking the support boats is **high**.

Dr. Imre Molnar
